1. The construction, enlargement, alteration, or moving of any dwelling, building, or any part thereof, being used or to be used for agricultural, residential, commercial, or industrial purposes; provided, however, that a building permit is not required for a building incidental to the use for agricultural purposes of the land on which the building is located if the building is not used in the business of retail trade.
2. Agricultural buildings and structures to insure proper placement on a lot or parcel of land.
3. Accessory buildings and portable structures necessary to an agricultural operation, shall not require a building permit as long as the placement of said building conform to the setback and height requirements of the district in which they are located.

C. APPLICATION FOR A BUILDING PERMIT. Application for a building permit shall be made in writing upon a blank form furnished by the building inspector and shall state the name and address of the owner of the building and the owner of the land upon which it is to be erected, enlarged, altered, or moved. There shall be submitted with all applications for building permits two copies of a site layout or plot plan showing:

Any building permit granted under this Section shall be null and void unless the development proposed shall have its first inspection within ninety (90) days from the date of the granting of the permit. The building inspector shall make every effort to notify the holder of a permit that is liable for voiding before voidance is actually declared. The building inspector may void or revoke a permit issued in error or on a basis of incorrect information supplied by the applicant or his agent or in violation of the ordinance or regulations of the Township.

E. INSPECTION. The construction or usage affected by any building permit shall be subject to the following inspections:

5. At time of staking out of building foundation.
6. Upon completion of the work authorized by the permit.

It shall be the duty of the holder of every permit to notify the building inspector when construction is ready for inspection. Upon receipt of such notification for the first inspection, the building inspector shall determine whether the location of the proposed building, as indicated by corner stakes, is in accordance with yard setback and other requirements of the ordinance. The building inspector shall issue his/her written approval at the time of inspection, if the building or proposed construction meets the requirements of this Ordinance. Should the building inspector determine that the building or structure is not located according to the site and construction plans filed or is in violation of any provision of this Ordinance or any other applicable law, he/she shall so notify in writing, the holder of the permit or his agent. Further construction shall be stayed until correction of the defects set forth has been accomplished and approved by the building inspector upon notice and request for re-inspection duly made.

The building inspector shall cause notice of such permit cancellation to be securely and conspicuously posted upon or affixed to the construction not conforming to the ordinance requirements and such posting shall be considered as service upon and notice to the permit holder of cancellation thereof; and no further work upon said construction shall be undertaken or permitted until such time as the requirements of this Ordinance have been met. Failure of the permit holder to make proper notification of the time for inspection shall automatically cancel the permit, requiring issuance of a new permit before construction may proceed.

SECTION 2.05. FEES, CHARGES, AND EXPENSES.

The Township Board shall establish a schedule of fees, charges, and expenses and a collection for building permits, appeals, and other matters pertaining to the ordinance. The schedule of fees shall be posted in the office of the building inspector and may be altered or amended only by the Township Board. No permit, certificate, conditional use on approval, or variance shall be issued until such costs, charges, fees, or expenses have been paid in full, nor shall any action be taken on proceedings before the Board of Appeals until preliminary charges and fees have been paid in full.

SECTION 2.06. VIOLATIONS; NUISANCES *PER SE*.

Any building or structure including tents and mobile homes, which are erected, constructed, reconstructed, altered, converted, maintained, or used or any use of land or premise which is begun, maintained, or changed in violation of any provision of this Ordinance are hereby declared to be a nuisance per se.

SECTION 2.07. PENALTIES (MUNICIPAL CIVIL INFRACTION).

A person who violates any provision of this Ordinance is responsible for a municipal civil infraction, subject to payment of a civil fine of not less than \$50.00 or more than \$500.00, plus costs and other sanctions for each infraction. Each day on which any violation of this Ordinance continues constitutes a separate offense and shall be subject to penalties or sanctions as a separate offense. Repeat offenses shall be subject to increased fines as provided by Section 10 of the Clarendon Township Code of Ordinances.

SECTION 2.08. ENFORCEMENT OF ZONING BY TOWNSHIP BOARD.

In addition to all other remedies provided herein, the Township Board in the event it determines a structure, including tents and mobile homes, which are erected, constructed, reconstructed, altered, converted, maintained or used, or any use of land or premises which is begun, maintained, changed, or abandoned in violation of any provisions of this Ordinance, may, following the expiration of thirty (30) days after notice of intent to proceed under this Section is given to the owner of record of said land or premises at the last address shown on the records of said Township, undertake to correct the violation and to assess the land or premises for the cost thereof, which said assessment shall become a lien upon said land and shall be collected in the same manner as Township taxes in accordance with the law in such case made and provided.

SECTION 2.09. COMPLIANCE BOND.

- A. To ensure compliance with this Ordinance and any conditions imposed under this Ordinance, the Township may require that a cash deposit, certified check, irrevocable letter of credit, or surety bond acceptable to the Township covering the estimated cost of improvements be deposited with the clerk of the Township to insure faithful completion of the improvements. The performance guarantee shall be deposited at the time of the issuance of the permit authorizing the activity or project. The Township may not require the deposit of the performance guarantee until it is prepared to issue the permit. The Township shall establish procedures by which a rebate of any cash deposits in reasonable proportion to the ratio of work completed on the required improvements shall be made as work progresses.

- B. This Section shall not be applicable to improvements for which a cash deposit, certified check, irrevocable bank letter of credit, or surety bond has been deposited under the land division act, 1967 PA 288, MCL 560.101 to 560.293.

 - 2. That literal interpretation of the provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Ordinance.

4. That no non-conforming use of neighboring lands, structures, or buildings in the same district and no permitted use of lands, structures, or buildings in other districts shall be considered grounds for the issuance of a variance.

B. Following receipt of a written request for a variance, the Zoning Board of Appeals shall fix a reasonable time for the hearing of the request and give notice as follows:

1. The Township shall publish notice of the hearing in a newspaper of general circulation in the Township not less than fifteen (15) days before the date of the hearing.

- C. The Board of Appeals shall make findings that requirements of the ordinance have been met by the applicant for a variance.
- D. The Board of Appeals shall further make a finding that the granting of the variance will be in harmony with general purpose and intent of this Ordinance and will not be injurious to the neighborhood or otherwise detrimental to the welfare.
- E. The Board of Appeals shall further make a finding that the reasons set forth in the application justify the granting of the variance and the variance is the minimum variance that will make the reasonable use of the land, building, or structure.
- F. In granting any variance, the Board of Appeals may prescribe appropriate conditions and safeguards in conformity with this Ordinance. Violations of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this Ordinance and punishable under Section 2.06 of this Ordinance.

- E. **HEARING BY THE BOARD OF APPEALS.** When a request for appeals has been filed in proper form with the Board of Appeals, the secretary, or Township Clerk shall immediately place the said request for appeal upon the calendar for a public hearing and cause notice to be given as provided in Section 3.07.B, provided that if the request does not involve a specific parcel of property, notice need only be published as provided in 3.07.B.a. and given to the person making the request as provided in Subsection 3.07.B.d.

CONDITIONAL USES

SECTION 10.01. PURPOSE.

The formulation and enactment of this Zoning Ordinance is based upon the division of the Township into districts, each of which is permitted specified uses which are mutually compatible. In addition to such permitted compatible uses, however, it is recognized that there are certain other uses which may be necessary or desirable to allow certain locations in certain districts but which, on account of their actual or potential impact on neighboring uses or public facilities, need to be carefully regulated with respect to their location for the protection of the Township. Such uses on account of their peculiar location need or the nature of the service offered may be established in a district in which they cannot be reasonably allowed as a permitted use.

Where uses are not specifically listed within any district yet are consistent with a specific use generally defined within the zoning ordinance, the zoning administrator may process the request for such use as a conditional use within the district in which the generally defined use is listed. The zoning administrator may also request such interpretation from the Zoning Board of Appeals if the applicant does not agree with such determination. The approval of such use shall be subject to the general standards for all conditional use and any specific conditions imposed for that generally defined use or as needed to bring compatibility between the proposed use and surrounding land use and zoning.

SECTION 10.02. AUTHORITY TO GRANT PERMITS.

The Township Board, with recommendation from the Township Planning Commission, shall have the authority to grant conditional use permits, including the authority to require such conditions of design and operation, safeguards, and time limitations as it may determine for all conditional uses specified in the various district provisions of this Ordinance.
